

# MALTA READY MIX

“ I was confident we were in good hands – Our project management team was impressed with the proactive safety and quality control measures in place during pre-construction and on-site. ”

- Jim Reeder

## STRATEGY AND PURPOSE

The Malta Ready Mix is a company providing customers around the globe with the highest quality concrete through consistency, efficiency and safety. We look to the future as a way to constantly strive for the most innovative and inspiring solutions for our customers while standing by our successful traditions.

## SAFETY

We believe that every incident is preventable. Our colleagues, partners and subcontractors have stop-work authority. If it's not safe, we don't do it. We reinforce this philosophy through a combination of technical field procedures, ongoing training, and a Life Critical Requirements Program that highlights activities that could be life-threatening when not executed according to published procedures.

Public safety is a critical part of our environmental, safety, and health programs, and we work with all appropriate stakeholders to improve industry and national standards. On many projects, we prepare and implement traffic safety management plans specific to the work site and to the local roads over which equipment and materials flow to support construction. The result is exceptional safety performance, even in hazardous work environments, severe weather, and remote locations including night work.

# MALTA READY MIX

**CONSTANTLY EVOLVING**  
**to Meet Our Customers' Needs**

## **Our Scope.**

We do small jobs close to home and large scale projects around the globe. Our reach is possible because our team is devoted to accessing the best equipment, resources and people. We continue to educate ourselves on new innovations. We are not scared to ask questions and make suggestions. We listen, we care and, most importantly, we want to be there.

## **What We are Proud of.**

Our experience and commitment to continuously learning and evolving makes each of our jobs rewarding not only for our customer, but for us. The Malta Ready Mix team are problem solvers. They find resources in any location. They make sure quality and safety are at the forefront. Below are some of our more recent projects.

### **Iowa:**

Contrail Wind Project

### **Montana:**

Irrigation Diversion Dam

Bureau of Reclamation - Underground Dike

Bonneville Power Substation

State of Montana - Armory

### **Nebraska:**

Thunderhead Wind Project

### **Nevada:**

Cover Rochester Mine Expansion

### **North Dakota:**

Oil and Gas Energy Services

### **Wyoming:**

Coal Mine Logistics and Support

### **Kansas:**

Jayhawk Wind Farm

## **SPOTLIGHT ON**

### **Cover Rochester Mine Expansion**

**LOCATION** Nevada

**COMPLETED** 2023

**PRESENT VALUE** \$13 Million

**CLIENT** Phoenix Industrial

Malta Ready Mix was hired to supply concrete and equipment to the expansion project at the Rochester Mine. This expansion includes a new leach pad, a crushing facility equipped with two high-pressure grinding roll units, a Merrill Crowe process plant and "related infrastructure." Our team provided concrete with our batch plant and pumped concrete with our dedicated on-site pump truck.
